Chennai, India - 600024 | +91 7358507799 | sharavanan045@gmail.com

Summary

[GITHUB](#)

[LINKEDIN](#)

- **Java Full Stack Developer** experienced in building web applications using Java, Spring Boot, React.js, MySQL, and PostgreSQL. Strong in Data Structures & Algorithms, REST API development, and database management. Skilled in developing scalable full-stack solutions and solving complex problems. Quick learner with excellent collaboration and software development skills.

Projects

NoteFlow – All-in-One Productivity Platform

Java Spring Boot, React.js, MySQL, Docker, Kubernetes

- Developed a full-stack productivity application integrating Notes, Tasks, Calendar, Reminders, and Clock functionalities.
- Built REST APIs using Spring Boot and integrated them with a React.js frontend.
- Designed MySQL database schemas for efficient data storage and retrieval.
- Containerized services with Docker and orchestrated deployments using Kubernetes.
- Implemented task tracking, event scheduling, reminder management, and note organization features.

Chess Game with AI Opponent | *Java Spring Boot, React.js, Stockfish*

- Built a full-stack chess application with AI-powered gameplay using the Stockfish Chess Engine.
- Developed REST APIs in Spring Boot to handle game logic and engine integration.
- Created an interactive React.js chessboard with real-time move validation and game state management.
- Implemented advanced chess mechanics including castling, pawn promotion, check, and checkmate detection.

AI Email Auto-Reply System | *Java Spring Boot, React.js, Gemini AI*

- Built an AI-powered email assistant that generates context-aware responses using Google Gemini AI.
- Developed Spring Boot REST APIs for email processing and AI integration.
- Created a React.js dashboard for reviewing, editing, and managing generated replies.
- Implemented prompt engineering and response customization features to enhance communication efficiency.

Skills

Hard Skills: Java, Spring Boot, Python, Flask, FastAPI, REST API Development, JWT Authentication, Role-Based Access Control (RBAC), React.js, JavaScript, MySQL, PostgreSQL, MongoDB, Database Design & Optimization, Frontend–Backend Integration, Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Git, GitHub, Postman, Docker, Backend System Design, Problem Solving, Software Development.

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Communication, Adaptability, Quick Learning, Time Management, Troubleshooting, Critical Thinking, Continuous Learning.

Education

M.Sc. Computer Science | Nandanam Arts and Science College | 2025 – 2027

Bachelor of Computer Applications (BCA) | The New College | 2022 – 2025
